#### Notices

Knowledge and best practice in this field are constantly changing. As new research and experience broaden our understanding, changes in research methods, professional practices, or medical treatment may become necessary.

Practitioners and researchers must always rely on their own experience and knowledge in evaluating and using any information, methods, compounds, or experiments described herein. In using such information or methods they should be mindful of their own safety and the safety of others, including parties for whom they have a professional responsibility.

To the fullest extent of the law, neither the Publisher nor the authors, contributors, or editors, assume any liability for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions, or ideas contained in the material herein.

#### Library of Congress Cataloging-in-Publication Data

A catalog record for this book is available from the Library of Congress

#### British Library Cataloguing-in-Publication Data

A catalogue record for this book is available from the British Library

# CONTENTS

List of Contributors .....	xv
Series Foreword .....	xxiii
Series Preface .....	xxv
Volume Preface .....	xxvii

## **Chapter 1 Recent Advances in Using Magnetic Materials for Environmental Applications ..... 1**

*Denisa Ficai, Anton Ficai, Ecaterina Andronescu*

1 Introduction .....	1
2 Nanomaterials for Wastewater Treatment .....	3
3 Magnetic Nanoparticles in Wastewater Treatment .....	12
4 Wastewater Treatment Method .....	13
5 Conclusions .....	20
References .....	21

## **Chapter 2 Nanotechnology for Water Purification: Applications of Nanotechnology Methods in Wastewater Treatment ..... 33**

*Konda Reddy Kunduru, Michael Nazarkovsky, Shady Farah, Rajendra P. Pawar, Arijit Basu, Abraham J. Domb*

1 Introduction .....	33
2 Importance of Nanotechnology in Water Purification .....	36
3 Applications of Nanotechnology in Water or Wastewater Treatment .....	38
4 Regeneration of Nanoparticles .....	62
5 Safety, Toxicity, and Environmental Impact of Nanomaterials .....	63
6 Limitations and Research Needs .....	64
7 Conclusions .....	64
References .....	65

**Chapter 3 Nanotechnology for Drinking Water Purification . . . . . 75***Ratna G. Suthar, Bin Gao*

1 Introduction . . . . .	75
2 Overview of the Water Purification Process . . . . .	88
3 Applications of Nanotechnology in Water Purification . . . . .	90
4 Concluding Remarks . . . . .	106
References . . . . .	109

**Chapter 4 Application of Nanotechnology in Drinking Water Purification . . . . . 119***Alberto Figoli, Mir Saeed Seyed Dorraji, Ali Reza Amani-Ghadim*

1 Introduction . . . . .	119
2 Antimicrobial Nanotechnology for Water Disinfection. . . . .	120
3 Zero-Valent Iron Nanoparticles . . . . .	125
4 Advanced Oxidation Processes with Nanostructured Photocatalysts . . . . .	135
5 Membranes for Water Purification Based on Nanotechnology . . . . .	142
6 Nanoadsorbent for Water Purification . . . . .	152
7 Conclusions . . . . .	154
References . . . . .	155

**Chapter 5 Nanotechnology-Based Filters for Cost-Effective Drinking Water Purification in Developing Countries . . . . . 169***Maggy NB Momba, Lerato Baloyi, Lizzy Mpenyana-Monyatsi, Ilunga Kamika*

1 Introduction . . . . .	169
2 Trends of Improved Drinking Water Systems in Developing Countries . . . . .	170
3 Nanotechnology for Safe Drinking Water . . . . .	177
4 The Governmental and Institutional Involvement Across Africa . . . . .	189
5 Case Studies on Cost-Effective Drinking Water Purification Systems for Developing Countries Particularly sub-Saharan Countries . . . . .	191

6	Conclusions . . . . .	199
	References . . . . .	202
<b>Chapter 6 Development of Magnetic Nanoparticles for Fluoride and Organic Matter Removal from Drinking Water . . . . . 209</b>		
<i>Ashraf F. Ali, Sahar M. Atwa, Emad M. El-Giar</i>		
1	Introduction . . . . .	209
2	Drinking Water Purification: Importance and Challenges . . . . .	210
3	Conventional Water Purification Methods . . . . .	211
4	Nanoparticles in Water Purification . . . . .	217
5	Technologies Currently Used for Organic Matter Removal . . . . .	242
6	Nanomaterial-Based Commercially Available Water-Treatment Devices . . . . .	249
7	Challenges and Prospectives . . . . .	253
	References . . . . .	255
<b>Chapter 7 Microorganisms: New Trends in Environment-Friendly and Energy-Saving Water Purification . . . . . 263</b>		
<i>Mariana Oana Mihaela Fufă, Roxana Cristina Popescu, Alexandru Mihai Grumezescu, Alina Maria Holban</i>		
1	Introduction . . . . .	263
2	Microorganisms in Water Purification . . . . .	265
3	Wastewater Conversion . . . . .	269
4	Nanoparticle Production by Bacteria . . . . .	271
5	Conclusions and Perspectives . . . . .	277
	References . . . . .	277
<b>Chapter 8 Polymeric Materials for Metal Sorption from Hydric Resources . . . . . 289</b>		
<i>Arsénio de Sá, Ana S. Abreu, Isabel Moura, Ana Vera Machado</i>		
1	Introduction . . . . .	289
2	The Adsorption Process . . . . .	292

3	Insights in Coordination Chemistry . . . . .	293
4	Adsorption Isotherms. . . . .	295
5	Limitations to the Adsorption Process . . . . .	297
6	Polymeric Materials for Metal Sorption . . . . .	299
7	Conclusions. . . . .	316
	References. . . . .	316

**Chapter 9 Photocatalytic Degradation and Adsorption  
Techniques Involving Nanomaterials for Biotoxins  
Removal from Drinking Water. . . . . 323**

*Elvis Fosso-Kankeu, Ajay Kumar Mishra*

1	Occurrence of Biotoxins in Drinking Water . . . . .	323
2	Risks Associated to Biotoxins in Water . . . . .	327
3	Application of Nanotechnology for Biotoxins Removal from Water. . . . .	331
4	Conclusions. . . . .	343
	References. . . . .	345

**Chapter 10 Nanotechnology-Based Membrane-Separation  
Process for Drinking-Water Purification . . . . . 355**

*Santanu Sarkar, Ankur Sarkar, Chiranjib Bhattacharjee*

1	Introduction. . . . .	355
2	The Brief History of Membranes . . . . .	357
3	Nanoparticle-Based Membrane. . . . .	361
4	Pathway for Commercialization of Nanomaterial-Based Membrane. . . . .	378
5	Conclusions. . . . .	381
	References. . . . .	382

**Chapter 11 Fate of Antibiotics During Water Treatment: Impact on Antimicrobial Resistance in Environmental and Clinical Strains . . . . . 391**

*Florica Marinescu, Irina Gheorghe, Ani Ioana Cotar, Denisa Alexandra Florea, Liliana Neagu, Doina Maria Cirstea, Veronica Lazăr, Mariana Carmen Chifiriuc*

- 1 The Origin, Transfer, and Accumulation of Antibiotic Resistance Genes in the Aquatic Environment. . . . . 392
- 2 Antibiotic Resistance in the Fresh and Sewage Waters . . . . . 401
- 3 Conclusions . . . . . 413
- References . . . . . 414

**Chapter 12 Nanostructured Membranes for the Microbiological Purification of Drinking Water . . . . . 421**

*Roxana Cristina Popescu, Mariana Oana Mihaela Fufă, Alexandru Mihai Grumezescu, Alina Maria Holban*

- 1 Introduction . . . . . 421
- 2 Microbiological Contaminants of Waters . . . . . 424
- 3 Membranes in Water Purification . . . . . 428
- 4 Nanostructured Membranes and Nanofiltration. . . . . 430
- 5 Conclusions and Perspectives . . . . . 435
- References . . . . . 435

**Chapter 13 Gold Nanoparticles: Advances in Water Purification Approaches . . . . . 447**

*Kostantinos Pantapasis, Alexandru Mihai Grumezescu*

- 1 Introduction . . . . . 447
- 2 Trace Elements . . . . . 451
- 3 Organic Compounds. . . . . 464
- 4 Conclusions . . . . . 473
- Abbreviations . . . . . 473
- References . . . . . 474

**Chapter 14 Nanomaterials and Food-Processing Wastewater. . . . . 479**

*Rajani Bharati, Suresh Sundaramurthy, Chandrakant Thakur*

1	Introduction . . . . .	479
2	Food-Processing Waste Stream . . . . .	487
3	Nanoscale Materials: Definition and Properties . . . . .	492
4	Developing Environmental Regulations Pertinent to Nanotechnology . . . . .	500
5	Nanoparticle Use in Pollution Control. . . . .	502
6	Nanoparticles for the Food-Processing Wastewater Purification. . . . .	503
7	<i>Escherichia coli</i> and Total Coliforms from Food-Processing Wastewater . . . . .	505
8	Purification Methods. . . . .	506
9	Use of Purified Water . . . . .	510
10	Conclusions . . . . .	512
	References. . . . .	514

**Chapter 15 Nanocomposite Filtration Membranes  
for Drinking Water Purification . . . . . 517**

*Priscila Anadão*

1	Introduction . . . . .	517
2	Membrane Processes . . . . .	519
3	Nanocomposites . . . . .	526
4	Nanocomposite Membranes for Water Filtration. . . . .	530
5	Conclusions and Future Research Directions . . . . .	545
	References. . . . .	545

**Chapter 16 Nanotechnology Depollution of Heavy Metals  
Present in Potable Water. . . . . 551**

*Paul Cătălin Balaure, Dragoș Gudovan, Iulia Alexandra Gudovan*

1	Introduction: The Toxicological Concern and the Nanotechnology Solution. . . . .	551
---	---	-----

2	Carbon-Based Materials . . . . .	553
3	Membranes for Nanofiltration . . . . .	556
4	Ligand-Based Materials . . . . .	560
5	Nanostructured Metals/Metal Oxides . . . . .	565
6	Natural or Nature-Based Materials . . . . .	576
7	Conclusions and Perspectives . . . . .	580
	References . . . . .	582

**Chapter 17 Application of Nanotechnology, Nanofiltration, and  
Drinking and Wastewater Treatment—a Vision for the Future . . . . . 587**

*Sukanchan Palit*

1	Introduction . . . . .	587
2	Global Drinking Water Crisis, Difficulties, and Success of Novel Separation Processes . . . . .	589
3	Advancement of Science and Technology and the Vision of Membrane Science . . . . .	592
4	Man’s Vision, a Scientist’s Prowess, and the Future of Industrial Wastewater Treatment . . . . .	596
5	Nanofiltration, Global Drinking Water Crisis, and the Vision for Future . . . . .	598
6	Purposeful and Instinctive Vision in Tackling Global Drinking Water Crisis. . . . .	599
7	Science, Technology, and the Vision of Domain of Drinking Water Treatment . . . . .	606
8	Application of Nanotechnology in Drinking Watertreatment: a Critical Overview . . . . .	609
9	Arsenic Groundwater Crisis in South Asia, Developed and Developing Economies, and the Vision Ahead . . . . .	610
10	Progress of Human Civilization, Progress of Science and Engineering, and Basic Human Needs. . . . .	611
11	Scientific Vision, Scientific Truth, and Introspection in the Domain of Drinking Water Treatment . . . . .	613

12	The Future of Groundwater Remediation and the Issue of Drinking Water Treatment . . . . .	614
13	Effective Novel Separation Processes and Far-Reaching Environmental Engineering Techniques . . . . .	615
14	Nanotechnology and the Vision for the Future . . . . .	616
15	Future of Civilization and Future of Environmental Sustainability . . . . .	618
16	Conclusions . . . . .	619
	References . . . . .	619

**Chapter 18 Microbial Biofilms from the Aquatic Ecosystems and Water Quality . . . . . 621**

*Liliana Neagu, Doina Maria Cirstea, Carmen Curutiu, Magda Mihaela Mitache, Veronica Lazăr, Mariana Carmen Chifiriuc*

1	Introduction . . . . .	621
2	Definition of Biofilm . . . . .	622
3	Stages of Biofilm Development . . . . .	623
4	Microbial Biofilms in the Aquatic Environment . . . . .	625
5	Microbial Biofilms in the Water Distribution Systems . . . . .	627
6	Other Strategies of Bacterial Survival in the Aquatic Environments . . . . .	629
7	Microbiological Quality Assurance in Drinking Water Distribution Network . . . . .	630
8	The Consequences of the Presence of Biofilms in Water Distribution Network . . . . .	633
9	Beneficial Roles of Microbial Biofilm in Water Treatment . . . . .	636
10	Conclusions . . . . .	638
	References . . . . .	638

---

**Chapter 19 Removal of Lead Ions from Water and Wastewaters  
Electrochemically . . . . . 643**

*Isaiah A. Oke, Salihu Lukman, Abubakar Ismail, Ezekiel O. Fehintola,  
Justinah S. Amoko*

1	Introduction . . . . .	643
2	Previous Laboratory Setups of Electrochemical Treatment of Water and Wastewaters . . . . .	657
3	Materials and Method. . . . .	662
4	Result and Discussion. . . . .	670
5	Conclusions. . . . .	688
	References. . . . .	688

**Chapter 20 Scientometric Overview Regarding Water  
Nanopurification . . . . . 693**

*Ozcan Konur*

1	Overview . . . . .	693
2	The Citation Classics in Water Nanopurification. . . . .	699
3	Conclusions. . . . .	710
	References. . . . .	711

	Subject Index . . . . .	717
