Contributors

Preface

Dedication and Acknowledgments

## **Section 1 Mechanisms of Drug Action and Therapeutic Principles**

Introduction

1 Introduction

    Websites

2 Pharmacodynamics

Biological Sites and Specificity of Drug Action

General Properties of Cellular Receptors

Agonists and Antagonists

Receptor Families, Subtypes, and Signaling Cascades

Quantitative Relationships

Receptor Regulation

Websites

Self-Assessment Questions

### 3 Pharmacokinetics

Absorption and Distribution

Metabolism and Elimination of Drugs

Clinical Considerations

Calculation of Pharmacokinetic Parameters

Multiple or Prolonged Dosing

Special Populations and Disease Considerations

Summary

Further Reading

Self-Assessment Questions

### 4 Pharmacogenetics

Genes Affecting Pharmacokinetics: Drug Metabolism and Drug Transporters

Genes Affecting Pharmacodynamics

Cancer Pharmacogenetics

Summary

Further Reading

Websites

Self-Assessment Questions

## 5 Drug Discovery, Development, and Regulation

Drug Discovery and Development

Prescription Writing and Regulation

Summary

Further Reading

Websites

Self-Assessment Questions

## **Section 2 Chemical Mediators and Drugs Affecting Autonomic and Neuromuscular Synapses**

Introduction

## 6 Introduction to the Autonomic Nervous System

Divisions of the Autonomic Nervous System

Functional Responses Mediated by the Autonomic Nervous System

Neurotransmission in the Autonomic Nervous System

Neurotransmitters in the Autonomic Nervous System

Neurotransmitter Receptors in the Autonomic Nervous System

Drugs Affecting the Autonomic Nervous System

New Developments  
Further Reading  
Websites  
Self-Assessment Questions

## Cholinergic Drugs

---

### 7 Muscarinic Agonists, Cholinesterase Inhibitors, and Their Clinical Uses

Therapeutic Overview  
Mechanisms of Action  
Relationship of Mechanisms of Action to Clinical Response  
Pharmacokinetics  
Pharmacovigilance: Adverse Effects and Drug Interactions  
New Developments  
Clinical Relevance for Healthcare Professionals  
Further Reading  
Websites  
Self-Assessment Questions

### 8 Muscarinic Antagonists and Their Clinical Uses

Therapeutic Overview  
Mechanisms of Action  
Relationship of Mechanisms of Action to Clinical Response  
Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 9 Nicotinic Agonists and Their Clinical Uses

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

Clinical Relevance for Healthcare Professionals

New Developments

Further Reading

Websites

Self-Assessment Questions

## 10 Neuromuscular Blocking Drugs and Nicotinic Antagonists

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self Assessment Questions

## Adrenergic Drugs

---

### 11 Adrenergic Agonists and Their Clinical Uses

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

### 12 Adrenergic Antagonists and Their Clinical Uses

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## **Section 3 Drug Treatment for Disorders Affecting the Central Nervous System**

Introduction

### 13 The Central Nervous System

Introduction

Neurotransmission in the Central Nervous System

Organization of the Central Nervous System

Drug Action in the Central Nervous System

Further Reading

Websites

Self-Assessment Questions

### 14 Drug Therapy for Alzheimer Disease and Other Cognitive Disorders/Dementias

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 15 Pharmacotherapy of Basal Ganglia Disorders

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 16 Drug Therapy for Psychoses and Bipolar Disorder

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 17 Drug Therapy for Depression and Anxiety

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 18 Drug Therapy for the Management of Attention Deficit-Hyperactivity Disorder

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 19 Drug Therapy for Insomnia and the Hypersomnias

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 20 Drug Therapy for Managing Obesity and Eating Disorders

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 21 Treatment of Seizure Disorders

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 22 Drug Therapy for Spasticity Disorders

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 23 Ethanol, Other Alcohols, and Drugs for Alcohol Use Disorder

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 24 Illicit Psychoactive Compounds and Substance Use Disorder

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## **Section 4 Drug Therapy for Pain Management**

Introduction

25 Introduction

Neurophysiology of Pain

Drugs to Alleviate Pain

Specific Pain Syndromes

Further Reading

Websites

26 General Anesthetics

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 27 Local Anesthetics

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 28 Opioid Analgesics

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 29 Nonsteroidal Antiinflammatory Agents and Acetaminophen

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

### 30 Cannabinoids as Analgesics

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Website

Self-Assessment Questions

## **Section 5 Treatment of Inflammatory, Allergic and Immunological Disorders**

## Introduction

### 31 Drug Therapy for Migraine Headache

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

### 32 Drug Therapy for Gout and Hyperuricemia

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 33 Drug Treatment for Allergic Reactions

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 34 Immunosuppressants for Autoimmune Disorders and Organ Transplantation

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self Assessment Questions

## 35 Drug Therapy for Rheumatoid Arthritis

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## **Section 6 Drug Treatment for Cardiovascular Diseases**

Introduction

### 36 Introduction to the Regulation of Cardiovascular Function

Central Control of Autonomic Nerve Activity

Regulation of Sympathetic Activity

Further Reading

Websites

Self-Assessment Questions

### 37 Overview of Hypertension Management and Drugs That Decrease Sympathetic Tone

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 38 Diuretics and Drugs That Affect Volume and Electrolyte Content

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 39 Drugs Affecting the Renin-Angiotensin-Aldosterone System

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

#### 40 Calcium Channel Blockers

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

#### 41 Vasodilators for Hypertensive Crises, Pulmonary Hypertension, and Erectile Dysfunction

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 42 Drug Therapy for Hyperlipidemias and Atherosclerotic Cardiovascular Disease

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 43 Drug Therapy for Myocardial Ischemia and Angina Pectoris

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

#### 44 Treatment of Heart Failure

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

#### 45 Antiarrhythmic Drugs

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

#### 46 Anticoagulant, Fibrinolytic, and Antiplatelet Agents

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

#### 47 Drug Therapy for Hemophilia and the Deficiency Anemias

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## **Section 7 Endocrine Pharmacology**

Introduction

### 48 Introduction to Endocrine Pharmacology

Introduction

Hormones

New Developments

Clinical Relevance for Healthcare Professionals

### 49 Treatment of Hypothalamic and Pituitary Disorders

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 50 Treatment of Adrenocorticosteroid Disorders

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 51 Female Hormone Regulation

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 52 Androgens, Antiandrogens, and Their Clinical Uses

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 53 Drug Therapy for the Management of Diabetes

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

## Self-Assessment Questions

### 54 Drug Therapy for the Management of Thyroid Disorders

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

### 55 Calcium Regulating Hormones and Other Agents Affecting Bone

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

# Section 8 Chemotherapy

Introduction

## Infectious Diseases

---

### 56 Principles of Antimicrobial Use

Introduction

Drug-Bacteria Interactions

Host-Bacteria Interactions

Drug-Host Interactions

Antimicrobial Therapy

Further Reading

Websites

Self-Assessment Questions

### 57 Drugs Targeting Bacterial Cell Walls and Membranes

Therapeutic Overview

Mechanisms of Action

Mechanisms of Resistance

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 58 Drugs Targeting Bacterial Protein Synthesis

Therapeutic Overview

Mechanisms of Action

Mechanisms of Resistance

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 59 Drugs Targeting Bacterial DNA

Therapeutic Overview

Mechanisms of Action

Mechanisms of Resistance

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 60 Antimycobacterial Agents

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 61 Drugs Targeting Resistant Organisms

Therapeutic Overview

Multidrug-Resistant Gram-Positive Bacteria

Multidrug-Resistant Gram-Negative Bacteria

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

## Parasitic Diseases

---

### 62 Antifungal Agents

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

### 63 Antimalarial and Other Antiprotozoal Agents

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 64 Anthelmintics and Ectoparasiticides

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## Viruses

---

### 65 Antiviral Agents

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 66 Antiretroviral Drugs for HIV

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## Cancer

---

### 67 Principles of Antineoplastic Drug Use

Therapeutic Overview

Drug Selection and Issues

Special Clinical Problems

New Developments

Further Reading

Websites

## Self-Assessment Questions

### 68 Cytotoxic Agents

Therapeutic Overview

Mechanisms of Action

Mechanisms of Resistance

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

### 69 Targeted Anticancer Agents

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

## **Section 9 Special Considerations**

### Introduction

#### 70 Therapeutic Use of Hematopoietic Growth Factors

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

#### 71 Gastrointestinal Disorders and Their Treatment

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 72 Pharmacological Treatment of Asthma and COPD

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 73 The Role of Nutraceuticals and Natural Products

Therapeutic Overview

Mechanisms of Action

Relationship of Mechanisms of Action to Clinical Response

Pharmacokinetics

Pharmacovigilance: Adverse Effects and Drug Interactions

New Developments

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 74 Essentials of Toxicology

Toxicology Overview

Mechanisms of Action

Toxicant Interactions

Emerging Issues

Clinical Relevance for Healthcare Professionals

Further Reading

Websites

Self-Assessment Questions

## 75 Therapeutic Considerations for Pregnant, Pediatric, Geriatric, and Obese Individuals

Therapeutic Overview

Relationship of Population Characteristics to Drug Responses

Further Reading

Websites

Self-Assessment Questions

## Appendix

Answers to Self-Assessment Questions

## Index

## Notices

Knowledge and best practice in this field are constantly changing. As new research and experience broaden our understanding, changes in research methods, professional practices, or medical

treatment may become necessary.

Practitioners and researchers must always rely on their own experience and knowledge in evaluating and using any information, methods, compounds, or experiments described herein. In using such information or methods they should be mindful of their own safety and the safety of others, including parties for whom they have a professional responsibility.

With respect to any drug or pharmaceutical products identified, readers are advised to check the most current information provided (i) on procedures featured or (ii) by the manufacturer of each product to be administered, to verify the recommended dose or formula, the method and duration of administration, and contraindications. It is the responsibility of practitioners, relying on their own experience and knowledge of their patients, to make diagnoses, to determine dosages and the best treatment for each individual patient, and to take all appropriate safety precautions. To the fullest extent of the law, neither the Publisher nor the authors, contributors, or editors, assume any liability for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions, or ideas contained in the material herein.
