# Revision Spine Surgery

## Pearls and Pitfalls

Edited by

**Gregory D. Schroeder, MD**

Assistant Professor of Orthopaedic Surgery at Thomas Jefferson University,  
Spine Surgeon at The Rothman Institute,  
Philadelphia, Pennsylvania

**Ali A. Baaj, MD**

Associate Professor of Neurological Surgery  
Co-Director, Spinal Deformity and Scoliosis Program, Weill Cornell Medical  
College, New York-Presbyterian Hospital, New York City, New York

**Alexander R. Vaccaro, MD, PhD, MBA**

Richard H. Rothman Professor and Chairman,  
Department of Orthopaedic Surgery, Professor of Neurosurgery,  
Co-Director, Delaware Valley Spinal Cord Injury Center,  
Co-Chief of Spine Surgery,  
Sidney Kimmel Medical Center at Thomas Jefferson University,  
President, Rothman Institute, Philadelphia, Pennsylvania

This book contains information obtained from authentic and highly regarded sources. While all reasonable efforts have been made to publish reliable data and information, neither the author[s] nor the publisher can accept any legal responsibility or liability for any errors or omissions that may be made. The publishers wish to make clear that any views or opinions expressed in this book by individual editors, authors or contributors are personal to them and do not necessarily reflect the views/opinions of the publishers. The information or guidance contained in this book is intended for use by medical, scientific or health-care professionals and is provided strictly as a supplement to the medical or other professional's own judgement, their knowledge of the patient's medical history, relevant manufacturer's instructions and the appropriate best practice guidelines. Because of the rapid advances in medical science, any information or advice on dosages, procedures or diagnoses should be independently verified. The reader is strongly urged to consult the relevant national drug formulary and the drug companies' and device or material manufacturers' printed instructions, and their websites, before administering or utilizing any of the drugs, devices or materials mentioned in this book. This book does not indicate whether a particular treatment is appropriate or suitable for a particular individual. Ultimately it is the sole responsibility of the medical professional to make his or her own professional judgements, so as to advise and treat patients appropriately. The authors and publishers have also attempted to trace the copyright holders of all material reproduced in this publication and apologize to copyright holders if permission to publish in this form has not been obtained. If any copyright material has not been acknowledged please write and let us know so we may rectify in any future reprint.

Except as permitted under U.S. Copyright Law, no part of this book may be reprinted, reproduced, transmitted, or utilized in any form by any electronic, mechanical, or other means, now known or hereafter invented, including photocopying, microfilming, and recording, or in any information storage or retrieval system, without written permission from the publishers.

For permission to photocopy or use material electronically from this work, please access [www.copyright.com](http://www.copyright.com) (<http://www.copyright.com/>) or contact the Copyright Clearance Center, Inc. (CCC), 222 Rosewood Drive, Danvers, MA 01923, 978-750-8400. CCC is a not-for-profit organization that provides licenses and registration for a variety of users. For organizations that have been granted a photocopy license by the CCC, a separate system of payment has been arranged.

This book is dedicated to my wife Katie, and our three sons, Leo, Henry and Grant. Your support is an incredible gift that I am blessed to have.

**Gregory D. Schroeder**

This book is dedicated to my beautiful daughter, Hannah, who has filled our hearts with endless joy.

**Ali A. Baaj**

This book is dedicated to my nephew Luke Vaccaro. There is a wise saying that the meaning of life is to find your gift and the purpose of life is to give that gift away. Luke your gift is your courage, tenacity, resiliency and love for family. Your parents are proud of you and you will always be a role model for your younger brother Drew.

**Alexander R. Vaccaro**

<b>Video list</b>	<b>xi</b>
<b>Contributors</b>	<b>xiii</b>
<b>GENERAL</b>	<b>1</b>
<hr/>	
1 The approach to revision procedures <i>Joseph A. Weiner and Wellington K. Hsu</i>	3
2 How to dissect the plane between the scar of a laminectomy defect in the posterior cervical spine <i>Ken Ishii</i>	13
3 How to dissect the plane between the scar of a laminectomy defect in the posterior thoracic and lumbar spine <i>Nickul S. Jain and Raymond J. Hah</i>	19
4 Local muscle flaps in the setting of revision spine surgery: Indications, operative planning, principles, and postoperative management <i>Briar L. Dent, Jaime L. Bernstein, and Jason A. Spector</i>	27
5 Revision and reimplantation of a spinal cord stimulator device <i>Fadi Al-Saiegh, John M. DePasse, Francis J. Sirch IV, Gregory D. Schroeder, and Chengyuan Wu</i>	35
<b>PART 1 ANTERIOR CERVICAL</b>	<b>39</b>
<hr/>	
6 Revision ACDF at the same level <i>Fadi Al-Saiegh, George M. Ghobrial, and James S. Harrop</i>	41
7 Revision ACDF: Adjacent level <i>Courtney Pendleton, Matthew S. Galetta, and Jack Jallo</i>	47
8 Converting a total disc replacement to an ACDF <i>Joseph D. Smucker and Rick C. Sasso</i>	51
9 Treatment of adjacent segment disease after total disc replacement (TDR) <i>Bruce V. Darden II</i>	59

---

<b>PART 2 POSTERIOR CERVICAL</b>	<b>65</b>
10 Revision suboccipital decompression for complex Chiari malformation <i>Jacob L. Goldberg, Ibrahim Hussain, Ali A. Baaj, and Jeffrey P. Greenfield</i>	67
11 How to revise a failed occipital cervical fusion <i>Joshua T. Wewel, Mazda K. Turel, Joseph E. Molenda, and Vincent C. Traynelis</i>	77
12 How to revise a failed C1–C2 fusion <i>Nizar Moayeri and Michael G. Fehlings</i>	83
13 Treatment of postlaminectomy kyphosis <i>Christopher T. Martin and John M. Rhee</i>	89
14 Revision of failed posterior cervical fusions <i>Trevor Mordhorst, Vadim Goz, and William Ryan Spiker</i>	101
15 Complications necessitating surgical intervention following cervical laminoplasty <i>Michael J. Moses, Amos Z. Dai, and Themistocles S. Protopsaltis</i>	109
<b>PART 3 THORACIC/THORACOLUMBAR SPINE</b>	<b>115</b>
16 Revision surgery for proximal junctional kyphosis following thoracolumbar fusion <i>Sundeep S. Saini, Daniel Cataldo, Christopher R. Cook, Hamadi Murphy, Paul W. Millhouse, and Kris Radcliff</i>	117
17 Pedicle subtraction osteotomy (PSO) nonunion revision <i>Jason W. Savage</i>	127
18 Treatment of a nonunion of a thoracolumbar deformity, not at the site of a three-column osteotomy <i>Randall B. Graham, Tyler R. Koski, and Patrick A. Sugrue</i>	133
19 How to safely remove a pedicle screw abutting the aorta <i>Kevin Savage, Paul W. Millhouse, Hamadi Murphy, Gregory D. Schroeder, and Alexander R. Vaccaro</i>	145
<b>PART 4 LUMBAR SPINE</b>	<b>149</b>
20 Revision of an anterior lumbar interbody fusion (ALIF) nonunion <i>Edward Delsole, Rishi Sharma, and Gregory D. Schroeder</i>	151
21 How to revise nonunion of a lateral lumbar interbody fusion (LLIF) through a lateral approach <i>Heeren S. Makanji, Jacqueline Koomson, Dhruv K.C. Goyal, and Gregory D. Schroeder</i>	155
22 How to surgically manage a recurrent lumbar herniated nucleus pulposus (HNP) <i>Taylor Paziuk, Matthew S. Galetta, and Jeffrey A. Rihn</i>	161
23 How to perform revision lumbar decompression <i>Jacob Hoffman, Ryan Murphy, Mark L. Prasarn, and Shah-Nawaz M. Dodwad</i>	167
24 How to perform revision lumbar decompression at the index level through a minimally invasive (MIS) approach <i>Aaron Hillis, Christoph Wipplinger, Sertac Kirnaz, Franziska A. Schmidt, and Roger Härtl</i>	173

---

25	How to revise a transforaminal lumbar interbody fusion (TLIF) nonunion with recurrent stenosis at the index level (open) <i>Jesse E. Bible and Gregory Pace</i>	183
26	How to revise a minimally invasive transforaminal lumbar interbody fusion (MIS TLIF) nonunion with recurrent stenosis at the index level through an MIS approach <i>Fady Y. Hijji, Ankur S. Narain, Gregory D. Lopez, Krishna T. Kudaravalli, Kelly H. Yom, and Kern Singh</i>	191
27	How to revise a posterior lateral decompression and fusion at the index level <i>Fadi Sweiss, Cristian Gragnaniello, Anthony J. Caputy, and Michael Rosner</i>	199
28	How to revise a posterior lumbar fusion that has developed adjacent-level stenosis with or without instability <i>Patrick Curry and Mark F. Kurd</i>	205
29	Flat back deformity revision surgery <i>Jefferson Wilson, Matthew S. Galetta, and Srinivas Prasad</i>	211
30	Revision high-grade spondylolisthesis surgery <i>Peter D. Angevine</i>	217
31	Management of a ventrally displaced graft following ALIF, TLIF or DLIF <i>Dhruv K.C. Goyal, Heeren S. Makanji, Gregory D. Schroeder, and Brian W. Su</i>	223
<b>PART 5 SPECIAL CASES</b>		<b>229</b>
32	Treatment of symptomatic cervical and lumbar pseudomeningoceles <i>Joshua E. Heller and George Rymarczuk</i>	231
33	Treatment of a persistent cervical dural tear <i>Jessica L. Block and D. Greg Anderson</i>	241
34	Treatment of a ventral thoracic dural defect <i>Ibrahim Hussain, Peter F. Morgenstern, and Ali A. Baaj</i>	245
35	Treatment of a persistent lumbar dural tear <i>Joseph S. Butler, Matthew S. Galetta, and Barrett I. Woods</i>	251
36	Treatment of a chronic postoperative cervical and lumbar spine infection <i>Kamil Okroj and Christopher Kepler</i>	255
<b>Index</b>		<b>261</b>
